Summary

Computer Science undergraduate at NIT Patna with strong foundations in data structures, backend engineering, and full-stack development. Experienced in building scalable web applications using Next.js, Express.js, and MongoDB, with focus on performance optimization and real-world problem solving.

Education

National Institute of Technology Patna

B.Tech, Computer Science Engineering

GPA: 9.54 / 10.00

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, OOP, Computer Networks, Software Engineering

Patna, Bihar

Expected May 2029

Projects

Jobify | Next.js, Gemini, MongoDB, JWT, TailwindCSS

Live | GitHub

- Built a **resume analysis platform** using Gemini API to generate **ATS-style feedback**.
- Implemented **keyword-matching** and resume parsing workflows to rank candidates against job descriptions.
- Automated resume evaluation pipelines, reducing manual shortlisting effort during testing workflows.
- Optimized **MongoDB queries** and API routes, maintaining **response times below 200ms**.

Civic Bridge | Next.js, Express.js, MongoDB, Session Auth, TailwindCSS

Live | GitHub

- Built a **community reporting platform** with role-based access and secure backend APIs.
- Developed **complaint tracking workflows** with real-time status updates for citizens and authorities.
- Implemented protected routes and session-based authentication to secure user operations.
- Optimized **MongoDB queries**, reducing API latency by **320ms**.

Experience

Meru Technosoft Pvt. Ltd. | Frontend Intern (Remote)

Mar 2026 – Jun 2026

- Built **12+ dashboard interfaces** using React for a **B2B SaaS platform**, accelerating MVP feature delivery across multiple business domains.
- Converted **UI/UX designs** into **reusable frontend components**, reducing implementation effort and improving development consistency.
- Integrated **10+ APIs** into dashboard workflows, enabling real-time data visualization and user interactions.
- Optimized **responsive layouts** and ensured **cross-browser compatibility** across desktop and mobile devices.
- Identified and resolved **frontend bugs** during MVP development, improving application stability and UX.

HackSlash | Web Team Member

Apr 2025 – Present

- Shipped **production-ready features** using **Next.js, React.js, Express.js**, and **MongoDB**.
- Optimized **pagination** and **lazy-loading workflows** to reduce unnecessary API requests.
- Developed **RESTful APIs** for authentication and content management using **modular architecture**.

Achievements

- Solved **400+ algorithmic** and data structures problems across **LeetCode, Codeforces**, and other coding platforms.
- Secured **Runner-Up** position at the **NIT Patna Intra College Hackathon 2026** among **45+ participating teams**.
- Achieved perfect **100/100 score** in the **NPTEL Joy of Computing using Python** course. [Certificate]

Technical Skills

Programming: C, Java, JavaScript, TypeScript, Python

Web Technologies: HTML, CSS, React.js, Next.js, Node.js, Express.js, TailwindCSS

Databases: MongoDB, PostgreSQL, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Linux (Ubuntu), Postman, VS Code
