Summary

Computer Science undergraduate at NIT Patna with strong foundations in data structures, backend engineering, and full-stack development. Experienced in building scalable web applications using Next.js, Express.js, and MongoDB, with focus on performance optimization and real-world problem solving.

Education

National Institute of Technology Patna

B.Tech, Computer Science Engineering

GPA: 9.40 / 10.00, Top 5% of batch

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, OOP, Computer Networks, Software Engineering.

Patna, Bihar

Expected May 2029

Projects

Jobify | *Next.js, Gemini, MongoDB, JWT, TailwindCSS*

- Built a **resume analysis platform** using Gemini API to extract candidate skills and generate **ATS-style feedback** in real time.
- Implemented **weighted keyword-matching** logic to rank resumes against job descriptions with **dynamic scoring workflows**.
- **Automated resume parsing** and recommendation pipelines, **reducing manual shortlisting effort** during recruiter testing sessions.
- **Optimized MongoDB queries** and **indexed API routes** to maintain average **response times below 200ms**.
- Repo: github.com/prateek-sri/Jobify

Civic Bridge | *Next.js, Express.js, MongoDB, Session Auth, TailwindCSS*

- Built a **full-stack community reporting platform** with role-based access, enabling secure communication between citizens and authorities.
- Developed **centralized** complaint tracking workflows with **real-time** status updates and **protected backend API routes**.
- Optimized data integrity and query performance in **MongoDB**, reducing API latency for high-volume by **320ms**.
- Enhanced **accessibility** by designing a responsive **multi-step reporting flow** using **TailwindCSS** and **Framer**.
- Repo: github.com/prateek-sri/civic-bridge

Experience

HackSlash | *Web Team Member*

Apr 2025 – Present

Patna, Bihar

- Shipped production-ready features in web applications using **Next.js, React.js, Express.js**, and **MongoDB**.
- Optimized **pagination** and **lazy-loading** workflows to **reduce unnecessary API calls** and improve frontend responsiveness.
- Integrated **cloud-based image storage** and upload handling to **improve rendering stability** across pages.
- Developed RESTful APIs for **authentication, database operations**, and content management using **modular backend architecture** principles.

Achievements

- Solved **400+ algorithmic** and data structures problems across **LeetCode, Codeforces**, and coding platforms.
- Secured **Runner-Up position** at NIT Patna Intra College Hackathon 2026 **among 45+ participating teams**.

Technical Skills

Programming: C, Java, JavaScript, TypeScript, Python

Web Technologies: HTML, CSS, React.js, Next.js, Node.js, Express.js, TailwindCSS

Databases: MongoDB, PostgreSQL, MySQL

Core CS: Core CS: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Linux (Ubuntu), Postman, VS Code
